

Are you a **seafood producer** and would you like to **upgrade** your side-streams to **high value** ingredients? Then Help us help you!

In the WaSeaBi project, we develop solutions that will enable exploitation of the side-streams. To do this, we need information on how the seafood industry is handling the side-streams today and what is needed to valorize the side-streams.

Help us, help you exploit the side-streams by participating in this survey.
